

Labor & Jobs

1. How do you define a “good job”?
2. What are some factors that you feel make it difficult for people you know (or people in your community) to get "good" jobs (or "high-quality" jobs)?
3. In your opinion, which groups/subgroups are at the highest risk of not accessing high-quality jobs, and why?

Climate, Environment, Energy

1. How does high heat affect day-to-day life in your community?
2. How does air quality impact day-to-day life in your community?
3. When considering how to develop a sustainable economy, what are the most important environmental issues your community needs addressed? (e.g., forests and urban trees, endangered species, water quality, air quality, land conservation, etc.)
4. What are the environmental issues that affect you personally?

5. How does the cost of energy affect your community?

6. Are people in your community interested in installing solar energy?

7. If people are interested in installing solar energy, what is holding them back from installation?

Public Health

1. How has your health impacted your ability to work or go to school?

2. When you, family, or your dependents need to see a doctor or need other healthcare services, are you able to see a doctor or get the care you need in your community? If No – why?

3. In the last 12 months what challenges (if any) have you had with not having enough food, not having a steady place to live, paying rent or paying for utilities (water, electricity, gas)?

4. Have mental health challenges (depression, anxiety, etc.) impacted your life? If so, how?

5. Is anyone in your home dependent on medical equipment that requires electricity?
